

CMANA SURVIVORS SUPPORT GROUP

The Coptic Medical Association of North America is collaborating with some of the best therapists, psychologists, psychiatrists and counselors to create a safe and confidential environment for anyone who has been affected by sexual abuse.

CMANA will be starting support groups for survivors of sexual abuse that occurred at any age, as long as they are currently above the age of 18. Led by a team of experts, these support groups will ensure anonymity of all participant's identities, while upholding all ethical and christian standards. Register using the link below, or share with a friend who might find it useful.

#NOMORE

This group is NOT therapy, and does not replace therapy, therapeutic assessment, diagnosis or treatment. For more information
